

FIBROSE KYSTIQUE ^EN MUSIQUE

WHO WE ARE

FKM was born in May 2020, at a time when the pandemic was at its peak and in-person fundraising events had become impossible. FKM innovated by organizing virtual activities that allowed us to raise essential funds to fight cystic fibrosis (CF) and to raise awareness within both the artistic and cystic fibrosis communities. The end of 2021 marked the beginning of new public-facing activities and the start of a great journey.

OUR MISSION

Raise awareness about cystic fibrosis (CF) among music lovers of all ages and to generate funds that support research and initiatives aimed at improving the lives of those affected by the disease, as well as their families.

OUR VISION

We strive to be pioneers in raising awareness about CF, to innovate within the philanthropic sector, and to create impactful events that inspire change and foster community engagement.
